NOTES AND COMMENTS.

From time to time during the past few weeks the Manila papers have contained glowing reports of tremendous victories achieved by the Spanish troops in Cuba. If all the victories claimed to have been won were "true bills," or say only half of them, every man, woman and child in Cuba ought to have been killed long ago, while the justification for sending large reinforcements from Madrid to Cuba would have vanished gradually as each "crushing defeat" of the rebels was accomplished. The news which reached us lately through Reuters' Agency that upwards of 10,000 men of all arms would be despatched from Spain for Cuba early in January, indicated, of course, that the situation in Cuba was daily becoming more critical and that so formidable had the rebel army become that the "insurrection" was recognised as an affair which could not be treated lightly, and, on the contrary, it would only be by virtue of a large army in the field and the expenditure of vast sums of money that the power of the insurgent leaders could be crushed. That our surmises were well founded we are now assured, and as the press of Hongkong cannot be "gagged" like the press of Manila, we have much pleasure in giving a few facts relative to the true state of affairs in Cuba, which the Manila papers dare not publish. To put it briefly, we learn that of 150,000 men sent to Cuba 80,000 have either been killed outright or incapacitated from further service by sickness. General MARTINEZ CAMPOS, the Commander-in-Chief, is according to our information, more like an old woman than a live, up-to-date military officer, and he will not allow a body of men a hundred miles away from his headquarters, in a country without roads and telegraphs, to move without special orders given under his hand and seal. He has been in the habit of having small bodies of men stationed in various directions who could have saved themselves from disaster if their commanding officers had been allowed to exercise their own discretion, but as they have been ordered to hold certain points and make no move without authority from the Commander-in-Chief it often happens that overwhelming numbers of rebels swoop down on the outposts and kill them to a man. One of the Cabinet Ministers, ROMERO ROBLODO, to wit, lately proposed to his colleagues to remove General CAMPOS from office, and another General to the front, and prosecute the campaign vigorously, but unfortunately for the fair fame of the Spanish Government, strong representations led to high words and from high words to a "split" in the gubernatorial camp, as will be seen by a telegram published in another column. What the end of the revolt in Cuba will be is hard to say; a good deal depends on the United States and the maintenance of peace in Europe. One thing is certain and it is that the Spanish Government is no nearer a settlement of the Cuban difficulty than it was months ago.

In our last issue we published the *Japan Mail's* version of the regulations which the Japanese Government have thought fit to promulgate for the guidance of Chinese dealing to reside in Formosa. Having due regard to the fact that the Japanese insist upon treating the Chinese as *being apart from other races*, the regulations appear to us to be fair and reasonable. Article 5 of the treaty of Shimonoseki, which bears on this subject, appears rather complicated. We submit a translation of it for which we are indebted to the *Kobe Herald*, a newspaper which seems to tackle the question in a more equitable and sensible spirit, than the *Japan Mail*—

Inhabitants of the districts ceded to Japan who may wish to live outside the ceded district shall have the liberty to sell their immovable property and leave the place; for that purpose two years of the ratification of the present treaty, provided that, when the said period has expired, the inhabitants who have not yet left the district may at Japan's choice be regarded as subjects of the Japanese empire. Both the Japanese and Chinese Governments shall despatch one or more commissioners immediately upon the exchange of the ratifications of the present treaty, to finish delivery of Formosa. The delivery shall be completed within two months after the exchange of the ratifications of the present treaty. The *Japan Mail*, appears anxious to have the Chinese expelled, *in toto* from Formosa, and it is a very good thing that the Editor of the *Mail* was not invited to frame the treaty. Japan merely insists that only approved Chinese shall be allowed, on naturalisation, all the rights of an ordinary Japanese subject, and that all others shall, *in toto*, be classed as persons unfit for the rights of citizenship, but shall still remain as holders of land or other property. The provisions of the treaty appear to have been framed in a particularly liberal spirit by the Japanese towards the vanquished Chinese, and we cordially agree with our *Kobe* contemporary that the *Japan Mail* should have been more careful of reading a weak and unjustifiable argument on an incorrect and misleading version of Article 5 in the Shimonoseki treaty.

GREAT BRITAIN, THE UNITED STATES AND THE VENEZUELAN QUESTION.
LONDON, December 19th.

The U. S. Senate, on a motion proposed by Senator Morgan and supported by Senator Sherman, has decided to refer the Venezuela Delimitation Commission to the Foreign Committee. Both Senators supported President Cleveland, but deprecated hasty action in the matter.

CANADA AND THE VENEZUELAN DIFFICULTY.

NEW SPANISH COINAGE.

DEATH TO THE MEXICAN!
MADRID, December 17th.

When the new coinage for Puerto Rico has been completed the new coin for the Philippines will be struck off as soon as possible. As soon as the Philippines Government is supplied with the new coin it will be decreed that Spanish money only shall be legal tender in the Philippines.

THE MUNICIPAL SCANDALS.

MADRID, December 19th.

There was immense excitement in the city to-day. All the shops were shut and all the party chiefs took part in a demonstration designed to intimate to the Government that their supposition respecting the Councilors who have been publicly impeached is highly distasteful to the great mass of the citizens.

THE PRINCE OF WALES.

MADRID, December 19th.

The Prince of Wales met with an accident while shooting which may result in seriously impairing his eye-sight.

A CABINET CRISIS.

MADRID, December 19th.

Ministers Romero Robledo and Bosch y Festegeiros have sent in their resignations. The resignations of Romero and Bosch have been accepted.

The resignation of Minister Romero Robledo has caused a huge sensation, and is the subject of heated debate in political circles. It is asserted that he resigned owing to a disagreement with his colleagues respecting the *modus operandi* of General Martinez Campos, Commander-in-Chief of the army operating against the rebels in Cuba.

Bosch's resignation is due to the odium attaching to him in connection with the serious irregularities charged against the members of the Municipal Council.

LOCAL AND GENERAL.

H.M.S. *Caroline* will probably turn up here to-morrow from Amoy.

H.M.S. *Grafton*, a very fine and speedy vessel, is due here with relief about the end of the current month.

There will be a children's carol service in Union Church to-morrow afternoon, commencing at 3.30. A address will be delivered by the Rev. G. J. Williams.

At the regular meeting of the Victoria Precinct, held last night, Sir Knight J. Kirkwood was elected E.P. for the ensuing year, and Sir Knight F. W. Watts was elected Treasurer.

We are in receipt of a copy of "My Holidays in China" from the pen Mr. W. R. Kahler, M. J. I. This is capably reprinted from the *Temperance Union*, Shanghai.

We shall deal with the Venezuela interview in our next issue, and in the meantime will try to guess which of the two, Uncle Sam or John Bull, will have to do the crawling act, and which of the two is most like a crawling fish.

We have received from the *Kobe Herald* office the British Consul's Trade Report on the foreign trade of Higo and Otsu for the year 1894. This comes from a casual inspection, to be a very full report; but it is not rather late at the end of 1895!

A few days ago we mentioned that Admiral Buller, C.B., had arrived at Sandakan, North Borneo, from Singapore. We now hear that the despatch-boat *Alacrity*, with the gallant Admiral on board, left Manila this morning for Hongkong and may be expected here to-morrow afternoon or early on Monday.

At the Magistracy this morning thirty-seven persons were charged with breaches of the "light and pass regulations" and subjected to small fines. Sixteen breaches of the markets regulations were proved against hawkers, and varying punishments inflicted. For playing *Manchiao* without license, one coolie was fined \$5, and two others went up for a fortnight each in lieu of the same fine. A housewife was given three weeks' imprisonment for leaving her place without giving due notice.

It is reported by a Straits contemporary that Sir W. Bonner, Chief Justice of Ceylon, has been offered, but has refused, the Chief Justiceship of Jamaica, worth £2,000 a year.

In Mr. Erich Georg's weekly share report, issued to-day, he states that "the opening of the West River has been practically decided upon," and that in consequence there is a brisk demand for Hongkong, Canton and Macao Steamboat Co.'s shares.

On Monday afternoon, at Happy Valley, the Hongkong Football Club will play the Garrison under Rugby rules; Club in usual colours and Garrison in white. The Club colours will be provided on the field; kick-off at 4.30. Referee, Mr. W. C. Morcom, R.N.

"SCRAP": We gave just what appeared in the *Straits Times*, which is, confessedly, about the last paper in the world in which we should expect to find the first and most reliable news of a prize-fight. That paper credits Fitz with knocking out Corbett in the 94th round.

Now that there are wars and rumours of war all over the world, and President Cleveland seems determined to "go on the running" it is interesting to note that Uncle Sam has twelve formidable war vessels—include the *Monocacy*—in Far Eastern waters, which muster between them no less than 165 guns! Great Scot!

PRACTICAL steps are being taken by the leading Chinese of the Colony to express their opinion with reference to the enforcement of the "light and pass" regulations. To this end a meeting has been called at the Tung Wah Hospital at noon to-morrow (Sunday) when the views of leading Chinese residents are to be given, and steps taken to bring "the consensus of opinion to the knowledge of the Government."

HAKKA'S WAR-WHOOP from the *Prisco Bulletin*.—Admiral Walker compares the position of the United States in relation to first-class European nations to the position China occupied toward Japan before the recent war. The comparison is hardly fair. While the United States is not in good fighting condition at present, it is not so deplorably deficient in fighting ability as the Chinese showed themselves to be. Things would doubtless go against us for the first few months, but there is no reason to assume that we are incapable of the effort which in two or three years placed us in 1861 in the very front rank of fighting nations. But what the Admiral said about the necessity of a larger navy and an extensive system of coast and harbour fortification is none the less true. Defence is one of the ordinary and necessary expenses of Government. It is impossible to pursue a policy which will make us secure from attack. The star of civilization the world is in cannot be improved by pretending that it is higher than it is. The fact remains that ability to fight is the highest test of natural greatness. As Admiral Walker says, the greatest preventive of war is to be prepared for it. There would be no Corinto incident if the United States had pursued the policy outlined by Mr. Tilden in 1884. There would be no European aggressions in Venezuela or elsewhere if our lack of preparation was not known. From a purely economical point of view, a reasonably powerful navy and complete fortifications may be defended. Not only does weakness invite invasion, but the cost of expelling an invader would be infinitely greater than the cost of keeping one out.

The Mission steamer *Day Spring* will call alongside any vessel holding the Hongkong pennant, between 9 and 10.30 a.m., on Sunday, to convey men ashore to the 11 o'clock service, returning about 12.30 p.m.

HONGKONG INDUSTRIES.

III.—SOAP.

In the course of an article entitled "Eastern versus Western Industries" in this journal on the 20th of September last, mention was made of the new departure made by Messrs. Blackhead & Co. at Shaukiwan. We then stated that this enterprising firm had established at that place soap works, which were then in working order, and quoted the opinion of an expert, Mr. J. A. Blackhead, that with the excellent machinery at hand and a plentiful supply of tallow, etc., they would be able to turn out soap suitable for the Chinese market cheaper than it could be done at Shanghai, and very much cheaper than the same article could be imported from home. As the business has now got beyond the experimental stage a representative of the *Hongkong Telegraph* sought, and was courteously granted, permission a day or two ago to go over the works, the inspection resulting in the following interesting information being obtained:—

The soap works are situated on the Shaukiwan Road, just about midway between that village and Messrs. Butterfield & Swire's sugar refinery, and on approaching them the visitor is first struck by the neatness and substantial character of the buildings. The road to the two-story and basement building, with verandah all round. This is reserved for the offices of the works, the upper story being the residence of the manager and soap-maker,
